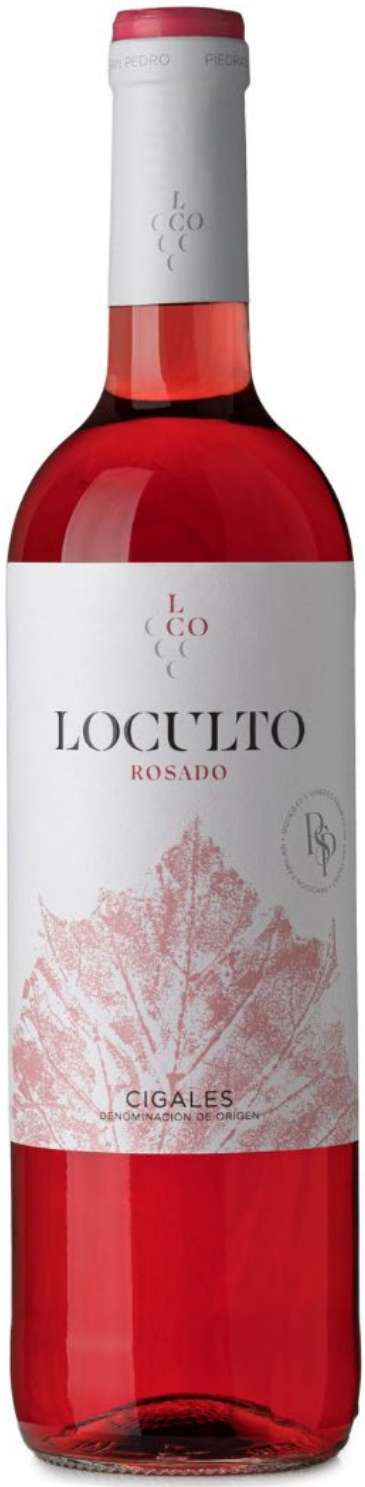
LOCULTO ROSADO CIGALES



TECHNICAL DATA SHEET

Designation of Origin: Cigales
Location: Cigales, Valladolid
Varieties: Tempranillo and Verdejo

HISTORY

Once our red wines were firmly established, we sought to round out our portfolio with a rosé that would stand on equal footing with its counterparts. To this end, we explored various areas within the Cigales D.O.—a region neighboring Ribera del Duero and renowned for high-quality rosés with a distinct personality and character—qualities we were keen to capture in our own wine. Ultimately, we selected specific vineyard plots in the heart of the Cigales D.O., which today give life to our own unique interpretation of a rosé.

ELABORATION

A blend of Tempranillo and Verdejo grapes from vineyards within the Cigales Denominación de Origen, harvested by hand. Fermentation is slow and takes place at a very low temperature; the winemaking process is handled with great care to bring out the intense red fruit notes and floral undertones that define this wine. A traditional, elegant, and fresh rosé.

TASTING NOTES

A rosé that is clean and brilliant. On the nose, it is intense, expressive, and fruity, offering a wide array of fresh red fruit aromas, such as strawberries, raspberries, and cherries, complemented by elegant, subtle floral notes and a delicate minerality. On the palate, it is highly fruit forward, striking an excellent balance between the crisp sensation of acidity and the aromatic profile, which together lend the wine complexity. Light and smooth, with a subtle, well integrated touch of sweetness that invites another sip, it reveals a certain fleshiness on the finish, resulting in a wine that is full bodied, persistent, and well structured even in its youth.
